## ***Super Stacks* Feature**

Each reel in ***Black Widow*** includes large stacks of the same symbol. Before each spin, a symbol is randomly selected to fill each reel's stacks. Any symbol may appear in any stack, except the Bonus scatter symbol which may appear on reels 2, 3, and 4 only. The same symbol may appear in large stacks on multiple reels on the same spin. When the same symbol appears in the stacks on adjacent reels, the potential for big wins increases.

## Web Capture Feature

In the Free Spins Bonus, capturing a Male symbol in the centre position on reel 3 pays the value on his respective meter. After each Male symbol capture, the value on the respective meter increases, up to a maximum of 13 increases per meter per bonus.

Capturing the Female symbol in the centre position on reel 3 pays the total value of the three meters for that spin and increases the value on each of the three meters, up to a maximum of 13 increases per meter per bonus.

Meter values are 2 to 1000 times the total bet in the triggering game.

## Free Spins Bonus

The Free Spins Bonus is triggered by getting nine Bonus scatter symbols on the three centre reels. These symbols are only found on reels 2, 3, and 4.

Triggering the Free Spins Bonus awards 7 free spins. In the Free Spins Bonus, the Web Capture feature pays for Male symbols and the Female symbol captured in the centre position on reel 3. Not all symbols are present on reel 3 during the free spins.

During the Free Spins Bonus, the Bonus can be retriggered by getting nine Bonus scatter symbols on the centre three reels. These symbols are only found on reels 2, 3, and 4. The Bonus can be retriggered multiple times, up to a maximum of 98 free spins per Bonus.

Free spins are played at same line bet and same number of lines as the triggering game.

## Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.

Scatter wins are independent from line wins and are added to the total amount paid.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

Regardless of bet size, there is an award cap on any single transaction. See the paytable for details. A transaction includes the results of the Free Spins Bonus plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately irrespective of any remaining free spins.

## **Additional Information**

### Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. This game has a theoretical Return to Player (RTP) of 93.49%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
