tumbling Reels Feature

All payable-defined symbol combinations trigger the *tumbling Reels* feature during regular and Free Spins Bonus game play. All winning symbol combinations are evaluated and values are added to the win meter.

All symbols in winning combinations disappear. All symbol positions on each reel are filled as symbols tumble from above, in sequence, to fill all empty spaces. The game screen is re-evaluated for symbols in winning combinations and values are added to the win meter.

The *tumbling Reels* feature remains active until no payable-defined symbol combinations are created as a result of new symbols tumbling from above.

Free Spins Bonus

Trigger the Free Spins Bonus by getting three Bonus symbols on a payline.

Triggering the Free Spins Bonus awards 6 free spins.

The Free Spins Bonus can be retriggered multiple times, and continues until there are 0 spins remaining or until 300 free spins have been played. To retrigger the Free Spins Bonus, get 3, 4, or 5 Bonus symbols anywhere on the Free Spins Bonus reels. 3 Bonus symbols award an additional 2, 3, or 4 free spins. 4 Bonus symbols award an additional 4, 6, 8, or 10 free spins. 5 Bonus symbols award an additional 6, 8, 10, 12, or 15 free spins.

The line bet and the number of played lines in the Bonus remain the same as the spin that triggered the Bonus. The reels in the Free Spins Bonus are richer and there are more ways to win. In addition to payline wins, it is possible to get scatter wins with several of the symbols (the "scatter symbols"). Get 3 or more of the same scatter symbol anywhere on the reels to win! See the payable for details.
